

**HEC® Management School – University of Liège (HEC®-ULg) invites applications for a tenure-track academic position in Management Information Systems starting on October 1, 2013.**

Prerequisites for qualification are a Ph.D. in Management Information Systems or in related fields (management, computer science, applied mathematics, industrial engineering, operations research). The candidate should demonstrate an excellent research potential and a keen interest in management applications, with significant international exposure.

The candidate will be responsible for a complete teaching load essentially at the graduate level, including introductory courses in computer science and management information systems, and at the postgraduate level. The candidate should be committed to high quality in teaching and should be able to teach in French and in English.

The candidate will become a member of the research center QuantOM and is expected to contribute to the development of the research center activities in supply chain management and quantitative methods. The School is especially interested in candidates with a strong background and a scientific interest in the adoption of management information systems and novel computing technologies (mobile computing, SaaS, cloud computing, semantic web, ...), their impact on the evolution of business models and their evaluation. Areas of interest include business process modeling and enterprise architecture, web based applications, eBusiness and eCommerce, business intelligence, ERP systems, logistics information systems, knowledge management,... Involvement in international networks, ability to supervise doctoral research, and/or evidence of industrial collaborations are valuable assets. The candidate will be expected to participate in research projects and missions for the account of the industry and/or public authorities.

HEC® Management School - University of Liège (HEC®-ULg) is the school of management of the University of Liege. HEC®-ULg is one of the leading Belgian university business schools for graduate and postgraduate programs with more than 115 full-time faculty members and researchers and more than 2380 students. The School's mission is to train creative managers who will be responsible for building the future of businesses and organizations in a cross-cultural world. HEC®-ULg is a dynamic institution that heavily promotes an active pedagogy leading students to actively contribute to their education. The international vision of HEC®-ULg translates into multiple research activities in management and economics, numerous partnerships with worldwide companies and universities, and growing internationalization of its programs and faculty.

HEC®-ULg is located in Liège, Belgium's third largest city, and the largest agglomeration of the French-speaking Walloon region. At the heart of Europe, Liège is the third inland port of Europe and the seventh freight airport in Europe. Recognized for its quality of life and its rich historical patrimonium, Liège is ideally situated within the Meuse-Rhin Euregio, 40 kilometers from Maastricht (the Netherlands) and 60 kilometers from Aachen (Germany). It is less than 1.5 hours away from Köln, 2.5 hours from Paris and 4 hours from London by high-speed train (TGV) starting from the new magnificent train station designed by the renowned architect Santiago Calatrava.
